

## Scholarships Available for Marine Science Summer Camps

Five day marine biology camps for boys and girls ages 8-14 will once again be held throughout the summer on Key Biscayne and Miami Beach. At these camps, students will explore the intertidal zone at Bear Cut, learn about dangerous marine animals, visit the Miami Seaquarium, learn to tag fish for scientific research, and much more.

All camps are directed by Gerard Loisel, Nova Southeastern University adjunct professor (1989-2015), MDCPS teacher and host of the PBS television series "Marine Aquarium World." Mr. Loisel, who was named the NSU College of Arts and Sciences Teacher of the Year for 2008-2009, has been teaching marine biology to students of all ages for 43 years.

The Key Biscayne Marine Biology Camps will be held on June 24-28, July 8-12, July 29-August 2 and August 5-9. The Miami Beach Marine Biology Camp will be held August 12-16.

All campers must provide their own daily transportation. A limited amount of scholarships to attend these camps are available. Some of the scholarships are provided by the Florida Marine Aquarium Society. These scholarships are intended to provide an opportunity for the children of low-income families to attend this camp. In order to provide as many families as possible the opportunity to send a child, we will limit the scholarships to one per family. The scholarship will cover 90% of the recipient's camp costs. The recipient will pay 10% (\$20), which will be due 2 weeks after the recipient has been notified that they have been awarded the scholarship. To apply for a camp scholarship, the following three documents must be submitted:

- **A letter from the child's teacher** containing the child's name, address, home phone and level of interest in marine biology.
- **A documentation of financial need.**
- **A letter from a parent or guardian** indicating that they are aware that their child is applying for the scholarship and that they will provide transportation for the child to and from the camp should that child be selected.

All documents must be mailed to the following address:

**Beyond the Seas Enterprises**

**P.O. Box 286**

**Key Biscayne, FL 33149**

Documents must be postmarked by **June 4, 2019**. Please go to [www.marinebiologycamp.net](http://www.marinebiologycamp.net) for additional information.
